

The Law of One, Book Two, Session 38, March 13, 1981

Ra: I am Ra. I greet you in the love and in the light of the one infinite Creator. We communicate now.

Questioner: Backtracking just a little bit today I would like to know if the reason nuclear energy was brought into this density forty or so years ago had anything to do with giving the entities who were here who had caused the destruction of Maldek another chance to use nuclear energy peacefully rather than destructively?

Ra: I am Ra. This is incorrect in that it places cart before horse, as your people say. The desire for this type of information attracted this data to your people. It was not given for a reason from outside influences; rather it was desired by your peoples. From this point forward your reasoning is correct in that entities had desired the second chance which you mentioned.

Questioner: What was the mechanism for fulfilling the desire for the information regarding nuclear energy?

Ra: I am Ra. As we understand your query the mechanism was what you may call inspiration.

Questioner: Would this inspiration be an entity impressing the person desiring the information with thoughts? Would this be the mechanism of inspiration?

Ra: I am Ra. The mechanism of inspiration involves an extraordinary faculty of desire or will to know or to receive in a certain area accompanied by the ability to open to and trust in what you may call intuition.

Questioner: Could you tell me how each of the rays, red through violet, would appear in a perfectly balanced and undistorted entity?

Ra: I am Ra. We cannot tell you this for each balance is perfect and each unique. We do not mean to be obscure.

Let us offer an example. In a particular entity, let us use as an example a Wanderer; the rays may be viewed as extremely even, red, orange, yellow. The green ray is extremely bright. This is, shall we say, balanced by a dimmer

indigo. Between these two the point of balance resides, the blue ray of the communicator sparkling in strength above the ordinary. In the violet ray we see this unique spectrograph, if you will, and at the same time the pure violet surrounding the whole; this in turn, surrounded by that which mixes the red and violet ray, indicating the integration of mind, body, and

spirit; this surrounded in turn by the vibratory pattern of this entity's true density.

This description may be seen to be both unbalanced and in perfect balance. The latter understanding is extremely helpful in dealing with other-selves. The ability to feel blockages is useful only to the healer. There is not properly a tiny fraction of judgment when viewing a balance in colors. Of course when we see many of the energy plexi weakened and blocked, we may understand that an entity has not yet grasped the baton and begun the race. However, the potentials are always there. All the rays fully balanced are there in waiting to be activated.

Perhaps another way to address your query is this: In the fully potentiated entity the rays mount one upon the other with equal vibratory brilliance and scintillating sheen until the surrounding color is white. This is what you may call potentiated balance in third-density.

Questioner: Is it possible for a third-density planet to form a social memory complex which operates in third-density?

Ra: I am Ra. It is possible only in the latter or seventh portion of such a density when entities are harmoniously readying for graduation.

Questioner: Could you give me an example of a planet of this nature, both a third-density service-to-others type and a third-density service-to-self type at this level of attainment?

Ra: I am Ra. As far as we are aware there are no negatively oriented third-density social memory complexes. Positively oriented social memory complexes of third-density are not unheard of but quite rare. However, an entity from the star Sirius' planetary body has approached this planetary body twice. This entity is late third-density and is part of a third-density social

memory complex. This has been referred to in the previous material. The social memory complex is properly a fourth-density phenomenon.

Questioner: I was wondering if that particular social memory complex from the Sirius star evolved from trees?

Ra: I am Ra. This approaches correctness. Those second-density vegetation forms which graduated into third-density upon this planet bearing the name of Dog were close to the tree as you know it.

Questioner: I was also wondering, since action of a bellicose nature is impossible as far as I understand vegetation, would they not have the advantage as they move into third-density from second to not carry a racial memory of a bellicose nature and therefore develop a more harmonious society and accelerate their evolution in this nature?

Ra: I am Ra. This is correct. However, to become balanced and begin to polarize properly it is then necessary to investigate movements of all kinds, especially bellicosity.

Questioner: I am assuming, then, that their investigations of bellicosity were primarily of the type that they extracted from Hixson's memory rather than warfare among themselves?

Ra: I am Ra. This is correct. Entities of this heritage would find it nearly impossible to fight. Indeed, their studies of movements of all kinds is their form of meditation due to the fact that their activity is upon the level of what you would call meditation and thus must be balanced, just as your entities need constant moments of meditation to balance your activities.

Questioner: I believe that this is an important point for us in understanding the balancing aspect of meditation since we have here its antithesis in another type of evolution. These entities moved, we are told by Charlie Hixson, without moving their legs. I am assuming that they used a principle that is somewhat similar to the principle of movement of your crystal bells in the movement of their physical vehicles. Is this correct?

Ra: I am Ra. This is partially incorrect.

Questioner: I am assuming that their method of movement is not a function of mechanical leverage such as ours, but a direct function of the mind somehow connected with the magnetic action of a planet. Is this right?

Ra: I am Ra. This is largely correct. It is an electromagnetic phenomenon which is controlled by thought impulses of a weak electrical nature.

Questioner: Would their craft have been visible to anyone on our planet in that area at that time? Is it of a third-density material like this chair?

Ra: I am Ra. This is correct. Please ask one more full question before we close as this instrument has low vital energy at this space/time.

Questioner: Could you give me some idea of what conditions are like on a fourth-density negative or service to self planet?

Ra: I am Ra. The graduation into fourth-density negative is achieved by those beings who have consciously contacted intelligent infinity through the use of red, orange, and yellow rays of energy. Therefore, the planetary conditions of fourth-density negative include the constant alignment and realignment of entities in efforts to form dominant patterns of combined energy.

The early fourth-density is one of the most intensive struggle. When the order of authority has been established and all have fought until convinced that each is in the proper placement for power structure, the social memory complex begins. Always the fourth-density effect of telepathy and the transparency of thought are attempted to be used for the sake of those at the apex of the power structure.

This, as you may see, is often quite damaging to the further polarization of fourth-density negative entities, for the further negative polarization can come about only through group effort. As the fourth-density entities manage to combine, they then polarize through such services to self as those offered by the crusaders of Orion.

You may ask more specific questions in the next session of working. Are there any brief queries before we leave this instrument?

Questioner: I would just ask if there is anything that we can do to make the instrument more comfortable or to improve the contact?

Ra: I am Ra. All is well. We leave you in the love and light of the one infinite Creator. Go forth rejoicing in the power and in the peace of the one Creator. Adonai.
